SUMMARY

Design Lead at Rsquare Web Studio since Jan 2022, delivering web and SaaS products for clients in India, Canada and the UK. Runs the delivery work around design: SRS and requirements, phase plans, UAT, issue logs and client trackers.

EXPERIENCE

Design Lead | Rsquare Web Studio, Thane

Jan 2022 - Present

- Led design and delivery for **2 client products** in Canada, from requirements to developer handoff and UAT.
- Turned client feedback into developer tasks, each logged with a priority, an owner and a next step.
- Scoped RoohConnect's matchmaking MVP (UK): market sizing, 4 competitors, **2 niches from 9**, a Maze test.
- Mentored the studio's design interns; partnered daily with developers, sales and client founders.

Product Design Intern | Manbal.ai

2021

- Designed Crowwwd, a campus community marketplace, across **2 product phases**.

PROJECTS

Stratalite | Lead product designer, UAT | Rsquare client

2026 | [Case study](#)

Vancouver B2B SaaS, live in beta, running property projects for managers, vendors and accounts payable; 5 roles.

- Ran 3 UAT passes on vendor, manager and PMC admin accounts: **106 test cases**, 15 issues, **6 high priority**.
- Directed AI browser agents to map **237 user flows** and run **73 lifecycle tests**; approved every destructive test.
- Defined the permission matrix for **5 roles and 13 actions**, with conditional rules such as "assigned property only".
- Traced **6 forms to 18 dashboard outputs** and agreed the priority KPIs with stakeholders before design.

Pacific Coast Contracting | Design Lead | Rsquare client

Sep 2025 - Sep 2026 | [Case study](#)

Vancouver home-services contractor, split into 4 brands with 4 websites after a recommended brand split.

- Ran the master tracker for 4 websites: **258 items**, each with priority, device, age and owner.
- Cut the client's 163-item "pending" list to **27 open items** by matching each row to the tracker; 136 were done.
- Shipped **88 web pages** across 4 sites with the dev team (36 of them city pages); logged **191 completed tasks**.
- Audited the roofing site against its 64-page sitemap (**20 pages missing**); logged **27 issues** in 4 brand catalogs.

Skooltag | Design Lead | Student Junction

2021 - 2022 | [Case study](#)

Delhi NCR school-uniform retailer, offline since 1989, moving online with a parent ordering app and a back office.

- Wrote a **15-page SRS** for the back office: admin, store manager, school reporting and delivery agent modules.
- Planned the back office in **3 phases**, estimated at 1.5 months of design and 5 months of development.
- Coordinated graphic, motion and developer work with no PM on the team; logged **7 client questions** in the flows.
- Handed off **85 app screens** in 14 flows and a 665-interaction clickable prototype to the developers.

ExportKit | Creator | Figma Community plugin

Personal project

Compresses Figma exports to WebP and AVIF, with vector detection and auto-retry.

- Built and published the plugin on Figma Community with AI coding tools.
- Wrote a **v2.1 spec** from user feedback: SVGO optimisation and kebab-case file names.

SKILLS

Project delivery: requirement documents (SRS), phase planning, project trackers and backlogs, UAT and bug logging, status reports, client and developer coordination, user roles and permissions

Tools: Figma, Notion, Linear, Google Sheets, Excel, GA4, Google Tag Manager, HubSpot, Google Ads, Meta Ads, Microsoft Clarity, Maze, WordPress

Technical: HTML, CSS, JavaScript, Node.js, AI agents (Claude, Codex) for testing and building

EDUCATION

B.E. Computer Engineering | University of Mumbai

2024
